ABOUT ME

I'm **Willy Prado**, web developer. I started my studies (self-taught) in web development in June 2019 and I have gained experience in HTML, CSS, JavaScript, React among others (WordPress). I also have more than 5 years of experience in digital marketing; I love CSS, reading manhwa, eating chocolate, viewing anime and drawing. Right now I search job as a Frontend web developer where I can develop professionally.

PS: Here I leave a link to my website
